Özet

Forward-thinking Product Manager with a robust background in spearheading technology initiatives across diverse global markets. Adept at driving product innovation, optimizing user experience, and leveraging datadriven insights to deliver high-impact solutions. Skilled in cross-functional collaboration, agile methodologies and strategic product development from conception to successful market launch

Skill set encompasses:

- Strategic Product Roadmapping for comprehensive market penetration.
- Data-Driven Decision-Making ensuring successful product strategies.
- User-Centricity through exhaustive research for user-focused enhancements.
- End-to-End Product Development & Innovation.
- Collaborative UI/UX Design that captivates and engages users.

Passionate about innovation and committed to delivering global-scale impact. Poised to drive transformative outcomes in the organization.

Deneyim

Chainels

Product

Ocak 2025 - Present (1 yıl 7 ay)

Rotterdam, Güney Hollanda, Hollanda

Product Owner leading strategy and delivery across Platform and Integrations teams. Own the full product lifecycle - from vision and roadmap definition to execution and launch, ensuring alignment between customer needs, business goals, and technical delivery.

- Lead and manage two cross-functional product teams (Platform & Integrations), working closely with engineering, design, and leadership
- Define and execute product roadmaps, balancing strategic initiatives with day-to-day delivery priorities
- Act as a key client-facing product partner, translating complex customer and business requirements into scalable solutions
- Successfully delivered Payments and ESG solutions, enabling customers to achieve financial, regulatory, and sustainability objectives
- Ensure smooth and high-quality delivery through hands-on involvement in delivery management, QA testing, and release readiness
- Use data analytics and dashboards to monitor performance, guide decision-making, and drive continuous product improvement

Getir

Product Manager

Şubat 2024 - Kasım 2024 (10 ay)

- Developed and articulated a clear product vision and strategy for search and recommendation features in the Cross-Domain structure (Market, Food, Local Shops) Ensured alignment with overall business objectives and customer needs.
- Worked on Elasticsearch and AWS OpenSearch for feature development on Cross-Domain (including all verticals under Getir - Market, Food and Local Shops). Utilized different recommendation logics such as GNN, collaborative filtering, content-based filtering, and rule-based recommendations to increase conversion rates and user satisfaction.
- Integrated AI and machine learning technologies to improve search relevance, recommendation accuracy, and overall user satisfaction.
- Worked closely with engineering, design, data science, and marketing teams to deliver high-quality, innovative solutions.
- Facilitate effective communication and collaboration across departments to ensure successful product launches.

Delivery Hero

2 yıl 1 ay

Product Manager

Mayıs 2022 - Ocak 2024 (1 yıl 9 ay)

- Directed cross-regional technology initiatives across APAC, Europe, and MENA, employing robust product strategy to drive impactful UX/UI enhancements for a more engaging product.

- Strategically integrated user feedback to inform data-driven product roadmapping and prioritize feature development, ensuring seamless alignment with overarching business goals.
- Collaborated seamlessly with cross-functional teams in development, design, and quality assurance, showcasing adept stakeholder management and facilitating the delivery of high-quality, innovative solutions.
- Employed a data-driven approach in managing the end-to-end product lifecycle, making informed data-driven decisions and meticulously preparing comprehensive documentation for successful product delivery.
- Orchestrated feature prioritization and guided product roadmap decisions, ensuring alignment with evolving market demands while fostering continuous innovation and user satisfaction.
- Pioneered monetization strategies, establishing a new revenue stream while bolstering company growth, driving a 6% increase in User-Generated Content related mCVR in two years.
- Leveraging AI and Chat-GPT functionalities to boost the user experience for the Ratings and Reviews content, including personalized solutions and improved algorithms with the touch of AI.

Product Owner

Ocak 2022 - Mayıs 2022 (5 ay)

İstanbul, Türkiye

- Led the seamless Yemeksepeti Migration project, orchestrating the transfer to the Pandora platform within Delivery Hero's infrastructure, demonstrating adept project management and leadership skills.
- Collaborated extensively with cross-functional teams engineering, data migration experts, and quality assurance exhibiting strong team collaboration and communication abilities for an efficient transition.
- Addressed critical feature gaps between legacy and new platforms, showcasing problem-solving and user experience optimization skills, ensuring a consistent and satisfying user journey.
- Meticulously managed data migration processes, emphasizing data integrity and risk management to minimize loss and ensure a secure, uninterrupted transition, showcasing strong technical acumen and attention to detail.

E-Ticaret 101 Akademi
